SOFTWARE DEVELOPER (FSD)

Passionate **full-stack engineer** with 2 years of hands-on experience in **front-end development** and developing scalable websites/applications using a wide range of **front-end** and **back-end** skills like **HTML, CSS, React.js, Next.js, Redux, Bootstrap, Python, JavaScript, Node.js, MongoDB** etc. Eager to apply my expertise and continuously learn new technologies.

PROFESSIONAL EXPERIENCE

Lince Soft Solutions Pvt Ltd
Software Engineer

Feb 2022 - present

- Developed responsive and visually appealing user interfaces for multiple web applications using **HTML5, CSS3**, and **JavaScript** resulting in an increase in online sales by 20% and significantly improved user experience.
- Worked with **CSS Selectors, classes, IDs**, and **Box models** with **flexed width, fluid** and **elastic** layouts.
- Implemented frontend components using modern **libraries** and **frameworks** like **React** and **Redux**, enhancing user experience and application performance.
- Utilized **Redux** for **state management**, resulting in a reduction in code complexity and an increase in team productivity.
- Implemented **version control systems (Git)** to streamline development projects and ensure code accuracy, cutting the project development time by 25%.
- Reduced repeat work by establishing a coding style and its implementation, resulting in a 10% increase in developer performance
- Developed and implemented a new front-end architecture using **React.js**, resulting in a 25% increase in page load speed and a 15% increase in user engagement.
- Optimized web applications for maximum speed and scalability, resulting in a 30% decrease in page load time and a 20% increase in overall site traffic.
- Gained hands-on expertise in **Bootstrap**, Foundation, **Express** and similar **back-end Node.js** as well as front-end presentation frameworks and web application frameworks
- Implemented targeted fixes for bugs within the websites, enhancing overall user experience, and executed strategic enhancements that not only addressed performance issues but also **optimized web functionality**, resulting in a significant boost in speed and usability.
- Utilizing advanced **HTML, CSS**, and **JavaScript**, developing advanced **forms** with **validation**, integrating social media development tools, displaying data using **JSON**, and designing creative user experiences.
- Designed and developed a user-friendly website, including an optimized check-out page that increased user clicks, and subsequently customer purchases by 20%
- Collaborated with the **back-end** team to integrate user-facing elements with **server-side** logic, resulting in a 20% reduction in server response time.
- leveraged **MongoDB's** NoSQL database capabilities to efficiently store and retrieve resume data, facilitating flexible schema design and seamless scalability for future enhancements and data expansions within the frontend application.
- Developed and maintained **5+ REST APIs** using **Node.js** and **Express.js** to provide data and functionality to web applications.

SKILLS

Frontend: HTML, CSS, Sass, JavaScript, TypeScript, Python, React.js, Redux, Next.js, Material-UI, Tailwind CSS, Bootstrap

Backend : Postman, Firebase, JWT, JSON-server, SQL, MySQL, MongoDB, Express.js, Node.js

Others : Git and GitHub, Heroku, Vercel, Netlify, Webpack, Responsive Web Design, UX/UI Design

EDUCATION

Full Stack Web Development

04 / 2021 - 11 / 2021

Went through the Full Stack Web and Computer Science Program and learned **MERN** Stack, Data Structures, Algorithms

Bachelor of Technology (EE)
